#### VITAS

Net revenue for VITAS was \$270 million in the first quarter of 2015, which is an increase of \$9.2 million, or 3.5%, when compared to the prior-year period. This revenue increase is comprised of an average Medicare reimbursement rate increase of approximately 1.4%, a 3.5% increase in average daily census, offset by the impact of the estimated Medicare Cap billing limitation in 2015 when compared to the prior year.

In the first quarter of 2015, VITAS reversed \$0.2 million in estimated Medicare Cap billing limitations. This compares to \$0.8 million of Medicare Cap billing limitations reversed in the first quarter of 2014. At March 31, 2015, VITAS had 35 Medicare provider numbers, none of which has an estimated 2015 Medicare Cap billing limitation.

Of VITAS' 35 unique Medicare provider numbers, 34 provider numbers have a Medicare Cap cushion of 10% or greater for the 2015 Medicare Cap period, and one provider number has a cap cushion between 0% and 5%. VITAS generated an aggregate cap cushion of \$296 million during the trailing twelve-month period.

Average revenue per patient per day in the quarter, excluding the impact of Medicare Cap, was \$201.96, which is 0.3% above the prior-year period. Routine home care reimbursement and high acuity care averaged \$164.72 and \$702.36, respectively. During the quarter, high acuity days of care were 6.9% of total days of care, 15 basis points less than the prior-year quarter.

The first quarter of 2015 gross margin, excluding the impact of Medicare Cap, was 21.1%, which is a 27 basis point increase when compared to the first quarter of 2014.

Selling, general and administrative expense was \$22.0 million in the first quarter of 2015, which is an increase of 1.2% when compared to the prior-year quarter. Adjusted EBITDA, excluding Medicare Cap, totaled \$35.8 million in the quarter, an increase of 8.2% over the prior-year period. Adjusted EBITDA margin, excluding the impact from Medicare Cap, was 13.3% in the quarter which is 53 basis points favorable to the prior-year period.

#### Roto-Rooter

Roto-Rooter's plumbing and drain cleaning business generated sales of \$107 million for the first quarter of 2015, an increase of \$9.2 million, or 9.3%, over the prior-year quarter. Water restoration accounted for the majority of this revenue growth, with water and flood remediation services increasing \$8.9 million in the quarter.

Roto-Rooter's gross margin in the quarter was 47.3%, an 88 basis point improvement when compared to the first quarter of 2014. Adjusted EBITDA in the first quarter of 2015 totaled \$21.4 million, an increase of 21.3%, and the Adjusted EBITDA margin was 20.0% in the quarter, 197 basis points higher than the prior year.

#### Chemed Consolidated

As of March 31, 2015, Chemed had total cash and cash equivalents of \$28 million and debt of \$161 million.

In June 2014 Chemed entered into a five-year Amended and Restated Credit Agreement that consisted of a \$100 million amortizable term loan and a \$350 million revolving credit facility. The interest rate on this facility has a floating rate that is currently LIBOR plus 112.5 basis points. At March 31, 2015, the Company had approximately \$248 million of undrawn borrowing capacity under this credit agreement.

Capital expenditures through March 31, 2015, aggregated \$8.6 million and compares to depreciation and amortization during the same period of \$8.6 million.

In the first quarter of 2015, Chemed's Board of Directors authorized an additional \$100 million for stock repurchase under Chemed's existing share repurchase program. These share repurchases will be funded through a combination of cash generated from operations as well as utilization of its revolving credit facility. Chemed currently has \$111.8 million of authorization under this share repurchase plan. The Company did not repurchase any Chemed stock in the first quarter of 2015.

#### Guidance for 2015

Full-year 2015 revenue growth for VITAS, prior to Medicare Cap, is estimated to be in the range of 3% to 4%. Admissions in 2015 are estimated to increase 4% and full-year Adjusted EBITDA margin, prior to Medicare Cap, is estimated to be 14% to 15%. Medicare Cap billing limitations for calendar year 2015 are estimated to be \$4.3 million.

Roto-Rooter is forecasted to achieve full-year 2015 revenue growth of 3% to 4%. This revenue estimate is based upon continued expansion in water restoration services coupled with increased job pricing of approximately 1%. Adjusted EBITDA margin for 2015 is estimated in the range of 19% to 20%.

Management estimates that full-year 2015 adjusted earnings per diluted share, which excludes non-cash expense for stock options, costs related to litigation, and other discrete items, will be in the range of \$6.50 to \$6.70. This compares to Chemed's 2014 reported adjusted earnings per diluted share of \$6.07.

This press release contains information about Chemed's EBITDA, Adjusted EBITDA and Adjusted Diluted EPS, which are not measures derived in accordance with GAAP and which exclude components that are important to understanding Chemed's financial performance. In reporting its operating results, Chemed provides EBITDA, Adjusted EBITDA and Adjusted Diluted EPS measures to help investors and others evaluate the Company's operating results, compare its operating performance with that of similar companies that have different capital structures and evaluate its ability to meet its future debt service, capital expenditures and working capital requirements. Chemed's management similarly uses EBITDA, Adjusted EBITDA and Adjusted Diluted EPS to assist it in evaluating the performance of the Company across fiscal periods and in assessing how its performance compares to its peer companies. These measures also help Chemed's management to estimate the resources required to meet Chemed's future financial obligations and expenditures. Chemed's EBITDA, Adjusted EBITDA and Adjusted Diluted EPS should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP. We calculated Adjusted EBITDA Margin by dividing Adjusted EBITDA by service revenue and sales. A reconciliation of Chemed's net income to its EBITDA, Adjusted EBITDA and Adjusted Diluted EPS is presented in the tables following the text of this press release.

(b) Included in the results of operations for the three months ended March 31, 2014, are the following significant credits/(charges) which may not be indicative of ongoing operations (in thousands):

	VITAS	Roto-Rooter	Corporate	Total

- (c) Under Generally Accepted Accounting Principles ("GAAP"), the Roto-Rooter segment expenses all advertising, including the cost of telephone directories, immediately upon the initial release of the advertising. Telephone directories are generally in circulation 12 months. If a directory is in circulation for a time period greater or less than 12 months, the publisher adjusts the directory billing for the change in billing period. The timing of when a telephone directory is published can and does fluctuate significantly on a quarterly basis. This "direct expensing" results in significant fluctuations in quarterly advertising expense. In the first quarters of 2015 and 2014, GAAP advertising expense for Roto-Rooter totaled \$6,067,000 and \$6,515,000, respectively. If the expense of the telephone directories were spread over the periods they are in circulation, advertising expense for the first quarters of 2015 and 2014 would total \$6,573,000 and \$7,256,000, respectively.
- (d) Adjusted diluted average shares outstanding for 2014 excludes the estimated dilutive impact of the Convertible Notes (285,000 shares for the first quarter of 2014) as this impact was offset entirely by the Convertible Note Hedges when such conversion occurred in the second quarter of 2014.
- (e) VITAS has nine large (greater than 450 ADC), 17 medium (greater than 200 but less than 450 ADC) and 23 small (less than 200 ADC) hospice programs. Of VITAS' 35 unique Medicare provider numbers, 34 provider numbers have a Medicare cap cushion of 10% or greater during the current Medicare cap year and one provider number has a Medicare cap cushion between 0% and 5%.
- (f) Amounts exclude indirect patient care and administrative costs, as well as Medicare Cap billing limitation.
